

DIE ERNÄHRUNG MEDIA DATA 2022

DIE ERNÄHRUNG *offers you:*

- 200 industry enterprises with 27,000 employees and a total production output worth EUR 9.1 million.
- High-quality editorial content
- News stories from business, technology, science and law
- No-waste coverage thanks to a clearly defined target group of readers highly interested in your products
- Excellent value for money

„DIE ERNÄHRUNG“ is the official journal of the Austrian Association of Food and Beverage Industries (Fachverband der Nahrungs- und Genussmittelindustrie, FIAA). Established nearly 40 years ago, it provides up-to-date expert reports and valuable background information to the Association’s member organisations – industry enterprises, government bodies and food oversight organisations. Also among the readers of the magazine are managers of supply companies and catering firms, as well as professional nutritionists, all of whom appreciate its topical content.

„DIE ERNÄHRUNG“ is addressed personally and delivered to the decision-makers of these key market participants.

Advertorials on demand

DIE ERNÄHRUNG enables you to precisely target the key decision-makers in Austria's
food and beverage industries. In this publication, the Austrian Association of Food and
Beverages Industries (Fachverband der Nahrungs- und Genussmittelindustrie, FIAA)
regularly provides its member organisations with topical expert reports and valuable
background information, as well as scientific articles and commentary on legislative
texts. There is no better way to pinpoint such a high-value target group.
